STUN GUNS

Stun guns use high voltage and low amperage to temporarily disable an attacker for several minutes. The stun gun does not rely on pain for results. The energy stored in the gun is dumped into the attacker's muscles causing them to do a great deal of work rapidly. This rapid work cycle instantly depletes the attacker's blood sugar By converting it to lactic acid. In short, he is unable to produce energy for his muscles, and his body is unable to function properly. The stun gun also interrupts the tiny neurological impulses that control and direct voluntary muscle movement. When the attacker's neurological and muscular system is overwhelmed and controlled by the stun gun, he loses his balance. Should the attacker be touching you, the current will not pass to your body!

STUN MASTER® has been a leading brand in the stun gun industry since 1994 making it a true icon in the world of self-defense. Maintaining this level of success for so many years in such a competitive field is the finest recommendation any product could be given. Stun Master stun guns have a Lifetime Warranty.

THE RECHARGABLE 20 MILLION VOLT RUNT is easily concealable, and virtually undetectable in the hand of a woman or a man. It now comes with a flashlight and wrist strap disable pin. Safety on/off switch. Available in Black, Pink, and Purple. LIFETIME WARRANTY. Size: 4 1/4" x 1 5/8" x 1"

Very easy to use.

If the attacker tries to grab the Telescopic Stun Baton from you, he will be shocked. But don't worry about getting shocked yourself if the attacker is touching you because it won't happen! The design of the Stun Master Telescopic Baton ensures that the current will not pass to you, but will shock your target through half of an inch of clothing. **LIFETIME WARRANTY.**

Kubotans

The **Kubotan** is designed to be used against bony surfaces, soft tissue and nerve points. It is effective because of the temporary paralysis or extreme pain it causes. Even for those without experience in a martial art, the Kubotan provides an inexpensive and easily learned method of self defense.

The Kubotan increases the power of any strike. It is not necessary to waste time or miss an opportunity by trying to be overly precise. It's better to react naturally. Good targets are the groin, stomach, solar plexus, throat, the arm, the shin, hip bone, collarbone, ankle, and kneecap. A sharp strike to a bony part of the body will encourage an assailant to stop his attack. A harder, well placed blow can easily break bones--especially if the force of the blow is not hindered by clothing.

The most basic applications involve striking or poking vulnerable areas of the body with the Kubotan. Generally speaking, swinging strikes work better against bony surfaces while fleshy areas are more susceptible to pokes and jabs with the ends of the Kubotan.

With this concept in mind, a person avoids the confusion and frustration of trying to remember specific strikes for specific targets.

Instead, one simply remembers to strike bones and poke soft tissue and pressure points.

There is no wrong strike. Just hit as hard as you can the closest body part. The strike does not have to be perfect. Since nerves are close to the surface of most bony parts, even a glancing blow will inflict enough pain to make your assailant think twice about continuing his attack. You can also use the keys that you have attached to the kubotan. You can hold the kubotan and swing the keys. Most effective when you hit the face.

The kubotan is legal and entirely unregulated. To most people, the Kubotan is little more than a nondescript key ring. While the Kubotan is not particularly intimidating, it remains an effective self defense installment. It really can save your life.

The Kubotans are made of aluminum and come in various colors, are 5 1/2" long and have either pointed or flat tips.
