# STUN GUNS

Stun guns use high voltage and low amperage to temporarily disable an attacker for several minutes. The stun gun does not rely on pain for results. The energy stored in the gun is dumped into the attacker's muscles causing them to do a great deal of work rapidly. This rapid work cycle instantly depletes the attacker's blood sugar By converting it to lactic acid. In short, he is unable to produce energy for his muscles, and his body is unable to function properly. The stun gun also interrupts the tiny neurological impulses that control and direct voluntary muscle movement. When the attacker's neurological and muscular system is overwhelmed and controlled by the stun gun, he loses his balance. Should the attacker be touching you, the current will not pass to your body!

**STUN MASTER®** has been a leading brand in the stun gun industry since 1994 making it a true icon in the world of self-defense. Maintaining this level of success for so many years in such a competitive field is the finest recommendation any product could be given. Stun Master stun guns have a Lifetime Warranty.
